

Top 5 Reasons:

To switch software and save time and money

We understand—switching software is no small task. But imagine how much time (and money) you could save in the long-run if your rental software could:

1. **Modern your business:** Bring your software into the 21st century and increase efficiency of standard day-to-day tasks while decreasing touch costs.
2. **Automate your tasks:** Automate everything from reporting to team management to increase your oversight and level-up timely decision-making.
3. **Give you greater control:** Establish greater control and management of your inventory and its ongoing maintenance costs.
4. **Put inventory on autopilot:** Imagine inventory taking and adjustments on autopilot—automated with your preferences in mind.
5. **Help you stay mobile:** Increased web presence, including mobile signature capture, delivery condition photos, web requests, customer portal for self-service and even e-commerce.
